A Yamaha 115hp repair manual is the type of manual that many Yamaha outboard owners are the most familiar with. These are typically described as an after-market manual and can be more specific with the information in the manual than a Factory Service Manual. The information in these types of manuals isn't overly technical so that not only professional repair mechanics can use them while ...

The result of this co-development and co-manufacturing agreement was a number of four-stroke outboards from 9.9-HP to 50-HP. The two manufacturers agreed that they would split the manufacturing of key components of these engines. Under their arrangement, Mercury produced specific parts of the engines which were used in both the Mercury and the Yamaha versions. And Yamaha did the same. For ...
