Confidence is a key to being successful in all things in life. School and tests – especially chemistry tests – are no different. When you study, start with the easier material and then work your way up to the more challenging stuff. Do the first couple of practice problems in your textbook's chapter review or on the study guide.

10 Study Pointers for Chemistry Tests - dummies

Chemistry. From aluminum to xenon, we explain the properties and composition of the substances that make up all matter.
